I'm looking for a solutions manual for a calculus book that I have. It is titled Rainville's Solutions of Differential Equations. This book was written in the 1940's, and I've not been able to find a copy online. So, I'm wondering if anyone knows of such a thing? Thanks! Preferably without actually having to read the solutions manual. (I've already looked on Amazon, and nothing. Also, this may be a stupid question, but I'm not really sure how to search for "solutions manual". So, I'm not even sure how to phrase the question.) Do you happen to know what a "solutions manual" is? I'm wondering how it would have fit in your life. I'm looking for a solutions manual for a calculus book that I have. It is titled Rainville's Solutions of Differential Equations
